

FIDIVI*

TESSITURA VERGNANO

SEAQUAL
INITIATIVE

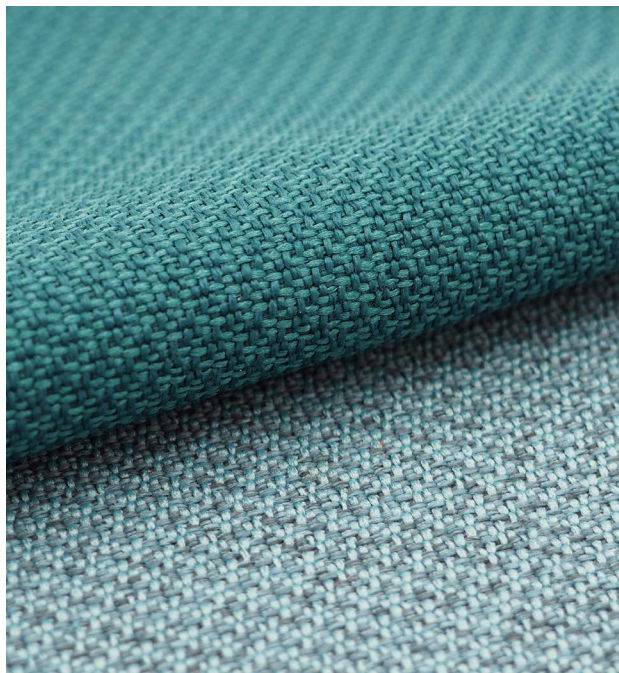

SEALIFE

SEALIFE

SEALIFE is a cross-functional fabric made of SEAQUAL® YARN, a special polyester fibre made with Upcycled Marine Plastic retrieved from our oceans and beaches.

With a rich colour palette of 12 solid hues and 18 melange tones, SEALIFE is available in pastel, vibrant and natural shades. Hard-wearing and durable, this upholstery fabric is highly suitable for both contract and offices.

With the fabric SEALIFE, FIDIVI is collaborating with SEAQUAL INITIATIVE to help clean our oceans while transforming marine litter into beautifully crafted fabrics.

Technical informations

COMPOSITION

100% recycled Polyester
SEAQUAL Certificate No.
SY050WV2000642

WEIGHT

460 ± 5% g/lm
330 ± 5% g/lm²

WIDTH

140 ± 2% cm

ABRASION RESISTANCE

(Martindale)
UNI EN ISO 12947-2
100.000 ± 10% rubs

PILLING

UNI EN ISO 12945-2
5 (standard pictures)
Tolerance: from 4 to 5

LIGHT FASTNESS

UNI EN ISO 105-B02
6 (blue scale)
Tolerance: from 5 to 8

FASTNESS TO RUBBING

EN ISO 105-X12
4/5 (grey scale)
Tolerance: from 4 to 5

FLAMMABILITY

EN 1021/1-2
BS 7176 Low Hazard
UNI 9175 Class 1IM
CAL TB 117:2013

Flame retardant
performance is dependent
upon the foam used

COLOUR

Slight color differences
between one lot and another
must be considered within
commercial tolerance

CLEANING AND WASHING
